Day #10: slideshow presentations

seanteachesmath

University of Central Oklahoma

Monday, September 21, 2020

Introduction

These are some words. We can include

- lists
- tables
- figures
- math

Elements of presentations

What makes a good or not so good presentation?

Good:

- good design:
  color, images, simplicity
- brief, simple text, organized by
  bullet points
- helpful graphics (pictures,
  diagrams, graphs)
- an interesting topic

Not So Good:

- poor design:
  ugly and cluttered
- long sentences and paragraphs
- long, complicated, calculations
  (context dependent)
- poor organization, unnecessary
  animations, loss of focus

Images

Tables

x	y
1	2
2	4

A simple table of x and y values.
